Non-Binding Open Season Notice
June 7, 2010 – June 30, 2010

Moss Bluff Hub Storage

Moss Bluff Hub, LLC (Moss Bluff) is pleased to announce a Non-Binding Open Season for storage capacity currently under construction for availability in the spring of 2011 and expansion capacity available as early as 2012/2013. Moss Bluff is one of the premier high-deliverability, multi-cycle salt cavern storage facilities in the Gulf Coast region. This facility, strategically located near the Houston Ship Channel in Liberty County, Texas, provides unparalleled reliability and flexibility which helps support markets from South Texas to the Midwest and the Northeast. Moss Bluff currently provides 15.4 MMDth of working gas storage capacity with up to 12-turn service and access to six major pipelines.

At a Glance
Due to increasing demand for natural gas storage, Spectra Energy is currently increasing the capacity of the Moss Bluff storage facility. The facility is in the construction phase of a project to develop a fourth storage cavern (Cavern #4 Project). This project will provide an additional 6.7 MMDth of working gas capacity, increasing the total working gas capacity of the facility to 22.1 MMDth. The capacity will become available in the spring of 2011.

Furthermore, Moss Bluff has the ability to expand existing caverns and develop an additional two caverns at the facility. Combined, these development opportunities would increase the working capacity of the facility by up to 20 MMDth. It is anticipated that this capacity could be available in phases beginning as early as 2012/2013 depending on market response.

Cavern #4 Project
The project is adding the following to the existing facilities:
- 6.7 MMDth of working capacity
- 500 MDth/d in peak withdrawal capacity
- 300 MDth/d of Natural Gas Pipeline Company of America (NGPL) meter capacity
- 2½ miles of 30-inch diameter pipeline looping
- 400 MDth/d of dehydration capacity

Facility Interconnects
Moss Bluff is connected to two interstate and four intrastate pipelines with aggregate meter capacity exceeding 2.3 MMDth/d.
- Texas Eastern Transmission, LP (TETLP)
- Natural Gas Pipeline Company of America (NGPL)
- Kinder Morgan Texas (formerly MidCon)
- Kinder Morgan Tejas
- Enterprise Texas (Channel)
- Houston Pipeline (through Channel)

Facility Ownership
Moss Bluff is a subsidiary of Market Hub Partners (MHP), which is owned 50% by Spectra Energy Transmission, LLC and 50% by Spectra Energy Partners, LP.
**Capacity Available**
The Maximum Storage Quantity (MSQ) available in this Open Season beginning as early as April 2011 is 2 MMDth with potential for up to 7 MMDth depending on market response. Additionally, up to 20 MMDth is available in phases beginning as early as 2012/2013. The maximum combined injection and withdrawal rights will be based on a 6-turn to 12-turn service agreement.

**Date of Capacity Availability**
April 1, 2011 for Cavern 4 Project capacity
April 2012/2013 for expansion capacity

**Capacity Allocation Procedures**
The Non-Binding Open Season period begins at 9:00 a.m. CST, on June 7, 2010, and concludes at 5:00 p.m. CST, on June 30, 2010. During this period, interested parties are requested to complete the Non-Binding Bid Form on the following page and submit by either mail, fax, or e-mail to:

Moss Bluff Hub, LLC
Attention: Marketer Services
5400 Westheimer Court
Houston, TX 77056

Fax: 713-989-3043
E-mail: jhbrowning@spectraenergy.com

Interested parties may also contact any of the following individuals to ask questions or seek additional information about this Non-Binding Open Season and future opportunities:

- Josh Browning - 713-627-4559
- Bryan Evans - 713-627-5261
- Anne Moore - 713-627-4555
- Kim Stroup - 713-627-4673
- Shamus Donahoe - 713-627-4785

**Limitations and Reservations**
Moss Bluff reserves the right to reject any and all bids including those not received by the deadline or that do not satisfy the requirements set forth in this Non-Binding Open Season Notice. Capacity will be evaluated and awarded based on monthly demand rate, turn service, and length of term. Without limiting the foregoing, Moss Bluff may, but is not required to, reject any request for service in which the Non-Binding Bid Form is incomplete, is inconsistent with the terms and conditions outlined in this Non-Binding Open Season Notice, contains additional or modified terms, or is otherwise deficient in any respect. Moss Bluff also reserves the right to reject requests for service in the event requesting parties are unable to meet creditworthiness requirements.

The above procedures and this entire brochure are informational marketing documents. No request for service shall be binding on Moss Bluff unless and until duly authorized representatives of both a requesting party and Moss Bluff have executed a binding Firm Gas Storage Contract. No contractual relationship is established between Moss Bluff or any of its affiliates and any party by the information contained herein.

Spectra Energy Corp (NYSE: SE), a FORTUNE 500 company, is one of North America’s premier natural gas infrastructure companies serving three key links in the natural gas value chain: gathering and processing, transmission and storage, and distribution. For nearly a century, Spectra Energy and its predecessor companies have developed critically important pipelines and related infrastructure connecting natural gas supply sources to premium markets. Based in Houston, Texas, the company operates in the United States and Canada approximately 19,100 miles of transmission pipeline, more than 285 billion cubic feet of storage, as well as natural gas gathering and processing, natural gas liquids operations and local distribution assets. The company also has a 50 percent ownership in DCP Midstream, one of the largest natural gas gatherers and processors in the United States. Spectra Energy is a member of both the Dow Jones Sustainability Index North America and the U.S. S&P 500 Carbon Disclosure Leadership Index. For more information, visit [www.spectraenergy.com](http://www.spectraenergy.com).

Spectra Energy Partners, LP (NYSE: SEP) is a Houston-based master limited partnership, formed by Spectra Energy Corp (NYSE: SE), that owns interests in natural gas transportation and storage assets in the United States, including more than 3,100 miles of transmission and gathering pipeline and approximately 49 billion cubic feet (Bcf) of natural gas storage. These assets are capable of transporting 3.26 Bcf of natural gas per day from growing supply areas to high demand markets.
