

## Valley Crossing Pipeline, LLC

| <b>Header Design Capacities</b>   |
|---|
| Total Deliveries $\leq 5,150,000$ Dth/day   |
| Deliveries to Brwns P/L $\leq 2,719,200$ Dth/day  |
| Deliveries from LP Rec Pts to Brwns P/L $\leq 2,575,000$ Dth/day (unutilized available for Compressed Header Deliveries)  |
| Deliveries requiring compression from HP Recs Pts = 0 if Deliveries from LP Rec Pts requiring compression $> 2,266,000$   |
| Deliveries requiring compression (excluding Brwns P/L) $\leq 2,575,000$ Dth/day subject to available compression capacity |
| Deliveries from HP Rec Pts $\leq 2,678,000$ Dth/day   |
| Deliveries from LP Rec Pts $\leq 2,575,000$ Dth/day   |

Note: Brwns P/L means the Brownsville Pipeline interconnect

Note: System operations on any given day may not reflect all design parameters as posted here
